234 x 156 mm
Hardback
£60.00

To date, intersex studies has not received the scholarly attention it deserves as research in this area has been centred around certain key questions, scholars and geographical regions. Exploring previously neglected territories, this book broadens the scope of intersex studies, whilst adopting perspectives that turn the gaze of the liberal, humanist, scientific outlook upon itself, in order to reconfigure debates about rights, autonomy and subjectivity, and challenges the accepted paradigms of intersex identity politics.

Presenting the latest theoretical and empirical research from an international group of experts, this is a truly interdisciplinary volume containing critical approaches from both the humanities and social sciences. With its contributions to sociology, anthropology, medicine, law, history, cultural studies, psychology and psychoanalysis, *Critical Intersex* will appeal to scholars and clinical practitioners alike.

Contents

Series Editors' Preface: Intersex trouble; or, how to bring your kids up intersex; Introduction: straddling past, present and future, M. Morgan Holmes; Part I Medical Practices/Colonial Practices: Clinical intervention and embodied subjectivity: atypically sexed children and their parents, Katrina Roen; 'Diagnosticism': 3 cases of medical anthropological research into intersexuality, Lena Eckert; Situating bio-logic, refiguring sex: intersexuality and coloniality, Hilary Malatino.
